

Timetable of Assessment Activities

Program Assessment

Each academic year, every program should select one to four [learning outcomes](#) to be assessed. Faculty in the program should [discuss](#) these [results](#). The assessment coordinator for the program should update the program's wiki page in this space to show these results and faculty's [reflection](#) on them by **September 30** of the following year.

Thus, a program can update its wiki page with results and reflection from AY 2007-2008 any time before September 30, 2008.

Gen Ed Assessment

General Education areas are assessed on a three-year rotation. [Results](#) and [reflection](#) should be provided on each area's wiki page by **June 15** of the year in which the results are gathered. For more information about general education assessment, including a timetable of the three-year rotation, see [Gen Ed Assessment](#).
