

Timetable of Assessment Activities

Program Assessment

Each academic year, every program should select one to four [Learning Outcomes](#) to be assessed. Faculty in the program should [discuss](#) these results. The assessment coordinator for the program should update the program's wiki page in this space to show these results and faculty's [Reflection](#) on them by **September 30** of the following year.

Thus, a program can update its wiki page with results and reflection from AY 2017-2018 any time before September 30, 2018.

Gen Ed Assessment

General Education areas are assessed on a three-year rotation. [Results](#) and [Reflection](#) should be provided on each area's wiki page by **June 15** of the year in which the results are gathered. For more information about general education assessment, including a timetable of the three-year rotation, see [Gen Ed Assessment](#).
