

# Brainstorming

Use **Add > Comment** to leave an idea here — any idea at all — that you think might go in the essay. Ideas can include suggestions for the essay's "I say" statement, suggestions for ways to organize the essay, and suggestions for *kinds* of evidence to use. The only thing that you *shouldn't* leave here is possible quotations from or references to works on the syllabus. Those should go on the [Quotations and References](#) page. Come back here to leave new ideas as often as you like. Don't worry about how good or well formulated your ideas are. This is just a way to get started! It's probably best to leave relatively short comments here. Don't start drafting the essay yet!
