

Software at Geneseo

Faculty & Staff

Most software can easily be installed on a campus owned computer with the [CIT Self Service application on Macs](#) and the [Software Center on Windows](#).

Before you Start

- Each software package has slightly different license specifications; please note what types of usage are allowed.
- Most download links require entering your Geneseo email and password.
- Some software may require the use of [Virtual Private Networking \(VPN\)](#) to connect to campus license servers.
