

iOS Resources (iPhone, iPod Touch, and iPad)

CIT has made it easy for you to configure your iOS devices. In the articles below you'll find a link that will install a profile capable of doing all of the setup for you on your iOS device. Click on the link from your iOS device and all you'll have to do is fill in some blanks. If you'd prefer to set everything up manually, each page also includes a description on how to do so.

- [iOS Wireless Network Configuration](#)
- [iOS Directory Configuration](#)
- [iOS VPN Configuration](#)
- [Removing a Profile on an iOS Device](#)

More Help

For questions, contact the CIT HelpDesk by calling (585) 245-5588, or visiting our [online service desk](#).
